COMPANY

Manxing Company Profile

Manxing company profile: history, capabilities, certifications, major projects, and engineering team overview.

Doc. No.	Version	Issued	Category	Website
MX-CP-001	Rev 1.0	October 2026	Company	www.manxingstorage.com

1. About Manxing

Manxing Silo Engineering is a leading reputable EPC contractor in the field of bulk material storage and transportation, headquartered in Zhengzhou, China. Manxing has passed ISO 9001, TUV and SGS certification, and has built projects in more than 40 countries and regions.

Manxing delivers complete silo systems and bulk material handling solutions for cement, fly ash, clinker, coal, slag, minerals, chemicals and custom materials - from first engineering study to installation, commissioning and lifetime service.

2. Milestones

Milestone	Achievement
Foundation	Established in Zhengzhou, focused on bulk material storage engineering
Product lines	Bolted and welded silo production lines put into operation
International expansion	Projects delivered to more than 40 countries and regions
System capability	Full EPC scope: design, fabrication, installation, automation, service
Quality systems	ISO 9001 certified manufacturing with TUV and SGS audits

3. Capabilities

- Engineering: silo structure, bulk solids process, aeration, conveying and automation design
- Fabrication: two production facilities with automated plate cutting, rolling and coating lines
- Installation: experienced erection teams and supervisors for domestic and overseas sites
- Automation: PLC control, level and inventory systems, remote monitoring
- Testing and commissioning: leak tests, aeration tests, instrument calibration, training
- After-sales: spare parts, maintenance programs and technical support

4. Product Range

Category	Products
Storage silos	Cement silo, fly ash silo, clinker silo, pulverized coal silo, ore powder silo, alumina silo, plastic particle silo, petroleum coke silo system, hydrated lime silo system, coal silo, slag silo
Silo types & stockyard	Large welded steel silo, spiral steel silo, large bolted steel silo, circular stockyard
Handling systems	Bucket elevator, pneumatic conveying, belt conveyor, quick loading and packaging system, dust removal, metering and mixing
Control systems	Material level monitoring, weighing and metering, integrated control, unattended loading, smart storage management

5. Industry Solutions

Manxing supplies bulk storage solutions for 11 major industries worldwide: cement, thermal power, coal mine, aluminum, processing and terminal, sand aggregate, powder grinding, bulk terminal, chemical plant, storage and loading, bulk stockyard loading station and concrete mixing.

6. Certifications and Quality

Certification / Audit	Scope
ISO 9001	Quality management system for design and manufacturing
TUV	Third-party product and process audits
SGS	Pre-shipment inspection and verification
Material traceability	MTCs for all plates and structural steel
NDT program	Visual, MT/PT and UT testing per EN ISO / GB standards

7. Engineering Team and Projects

Manxing employs a dedicated engineering team of structural, bulk solids process and automation engineers, supported by experienced site supervisors. More than 1,000 silo systems have been delivered to cement plants, power stations, mines, terminals and processing facilities worldwide.

8. Why Choose Manxing

- One-stop EPC contractor for storage, handling and control systems
- Certified manufacturing with full material and weld traceability
- International project experience in more than 40 countries
- Safety-first design (NFPA / ATEX) for combustible and hazardous materials
- Lifetime technical support and spare parts availability

Contact Manxing

For quotations, engineering review and site assessment, please contact the Manxing engineering team. Our engineers will respond within one business day.
